Name: _____

# Star wheel for 40° to 50° N

| Latitude band | Season | Language |
|---|---|---|
| 40° to 50° N | November | English |

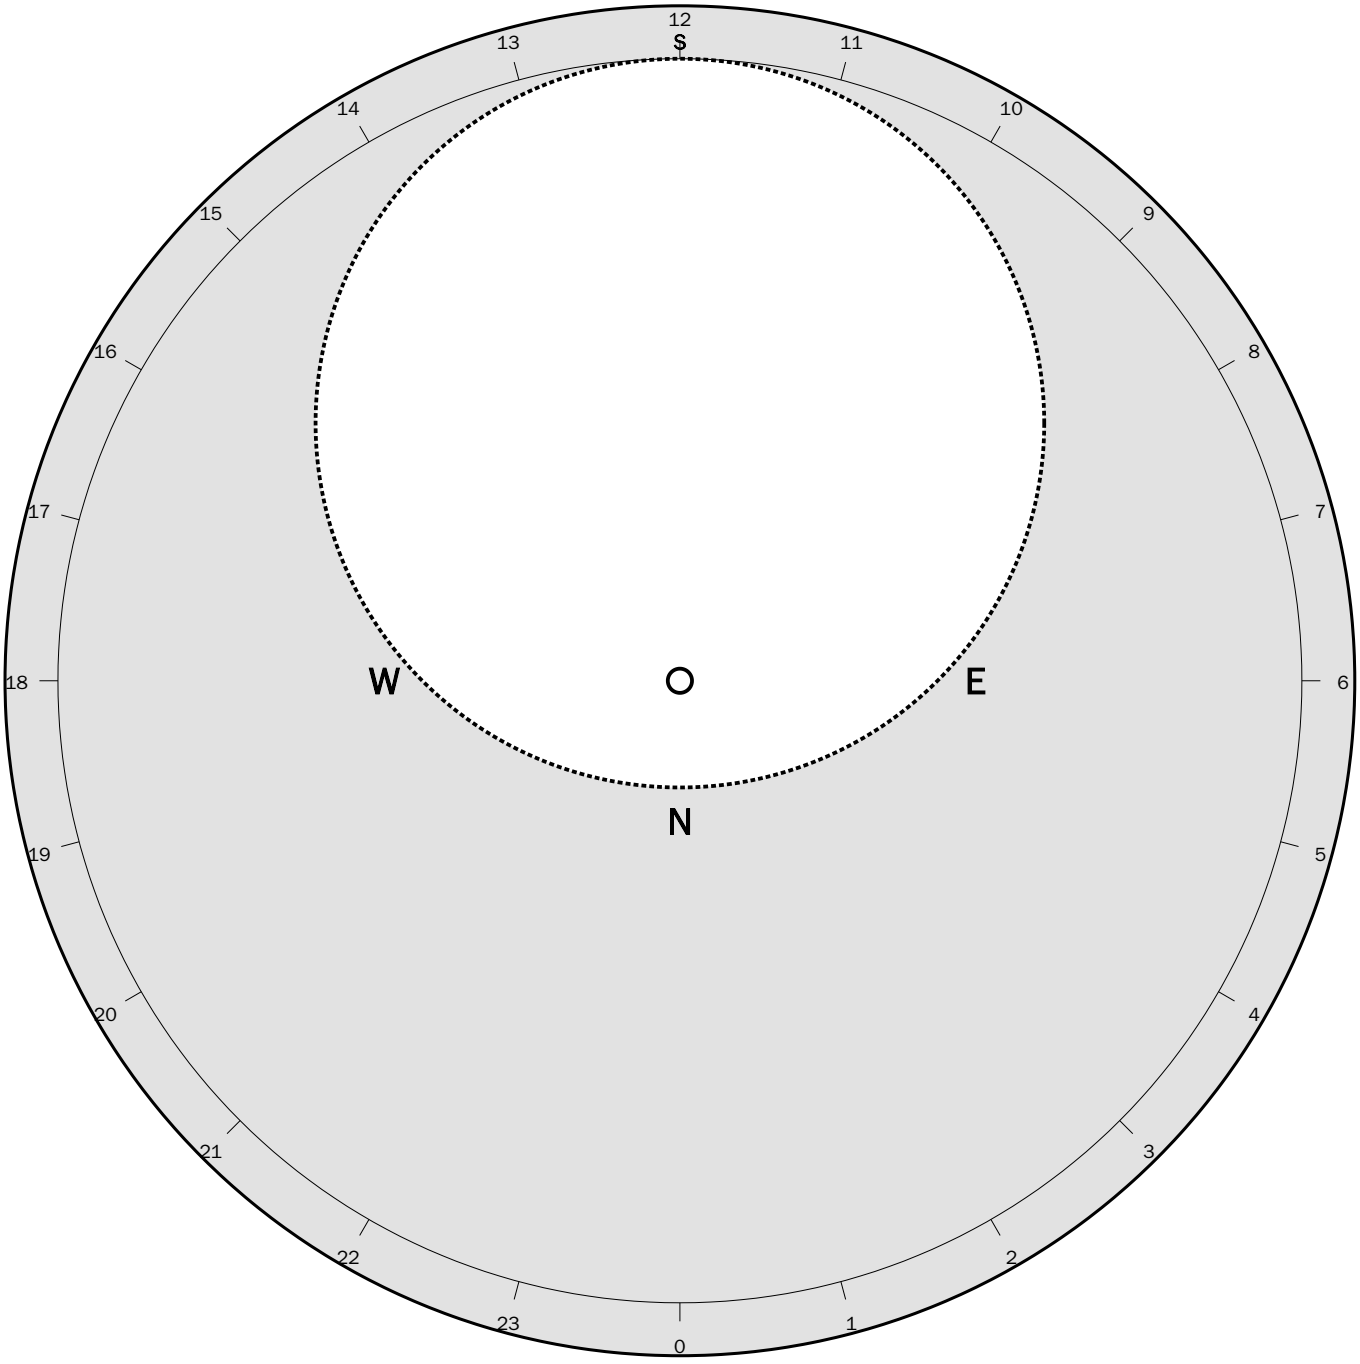

Cut out the star wheel along the outside line. The date is on its edge.
Names are the best known constellations. Face north to start.

Stars: Yale Bright Star Catalogue. The constellation figures are our own drawings.

Name: _____

# Star wheel for 40° to 50° N

Cut out the plate, then the window. Pin it over the wheel through both middles (ask a grown-up). Turn the wheel so the date is at the time you look. The window shows your sky. Face north to start.

Stars: Yale Bright Star Catalogue. The constellation figures are our own drawings.
